

NEOGATE TG Series

VoIP GSM Gateway for Cost Reduction

NeoGate TG series is a series of VoIP GSM gateway connecting GSM Network to VoIP Network directly, which can support two-way communication: GSM to VoIP or VoIP to GSM.

It is the best solution ever to connect IP-based telephone systems, and softswitches to GSM network; and also the best fallback solution when landline goes down.

Benefits

- **Cost saving**

Save phone bills tremendously with mobile-to-mobile calls

- **Back up**

Work as a cost-effective backup when the landline network goes down

- **Easy to install**

Everything can be easily set up in the Web based management interface

- **Easy to integrate**

High compatibility with major IP-PBX and softswitch brands
